

D6 Debiassing Worksheet

- 1

Set the first roll
Roll all five dice.
Place one marker on each row.
- 2

Roll the dice again
Keep the markers in place.
Compare each new result.
- 3

Place each die
L: second roll is lower.
H: second roll is higher.
- 4

Resolve ties
If equal, reroll that die twice.
Keep the other four results.

Assign your five colors to Die 1 through Die 5 once, then keep that order.

		FIRST ROLL: PLACE MARKER						SECOND ROLL: PLACE DIE	
Die 1	Color	1	2	3	4	5	6	L	H
Die 2	Color	1	2	3	4	5	6	L	H
Die 3	Color	1	2	3	4	5	6	L	H
Die 4	Color	1	2	3	4	5	6	L	H
Die 5	Color	1	2	3	4	5	6	L	H

Keep the markers and dice in place while you read Die 1 through Die 5 on page 2.

After recording the character on page 2, clear the marker tracks and L/H pads, then begin again.

L/H Character Tree

For Die 1 through Die 5, take the L branch to the left or the H branch to the right.

second roll is LOWER than the first

second roll is HIGHER than the first

Example: Die 1-Die 5 is L,H,L,H,H which leads to T

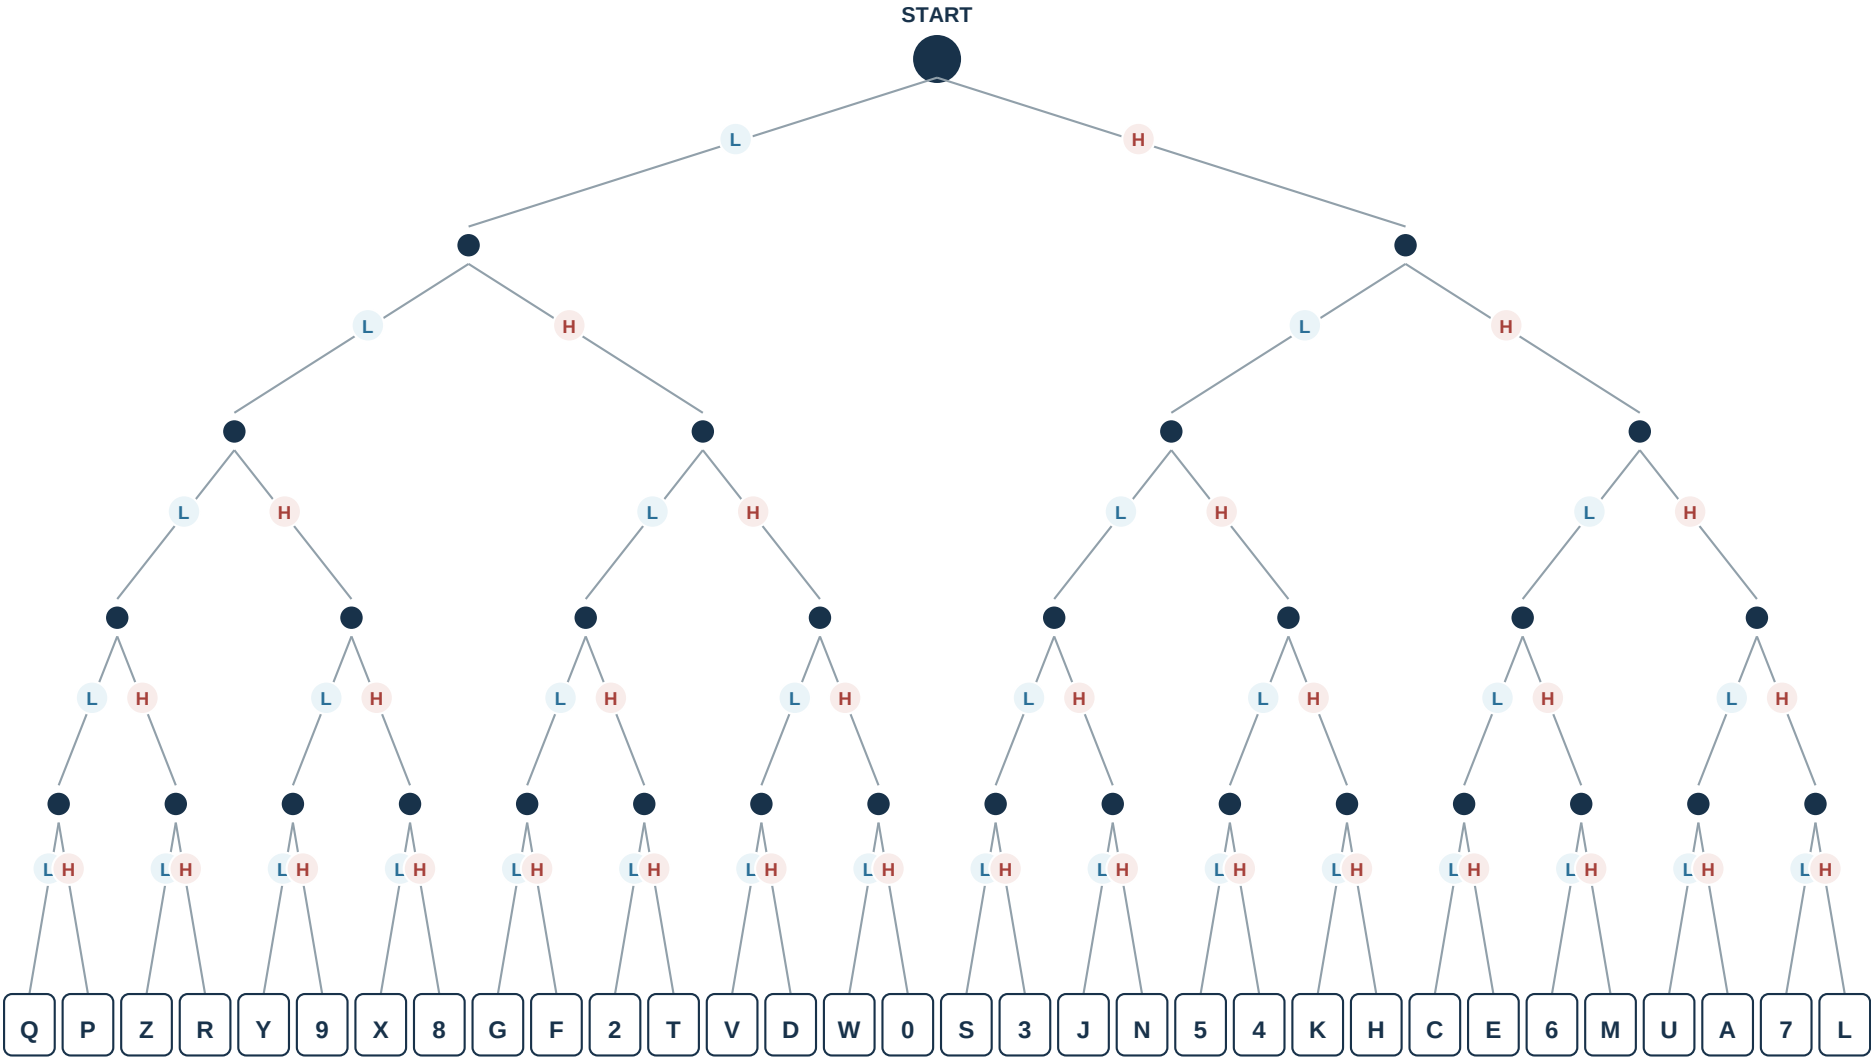

Die 1

Die 2

Die 3

Die 4

Die 5

Your 26 characters

Generate character 26 normally; the converter ignores its final two excess choices.
